

Suction and delivery ~ Multi-purpose

APPLICATIONS

- Suction and delivery light duty
- Watering
- Small pumps
- Seed drills

SECTORS OF ACTIVITY

- Agriculture
- Industry

SPIRABEL® LD

+60 °C -15

Flexible hose reinforced with a green shock-proof PVC spiral

in a soft and transparent PVC wall. Light duty. Outer smooth up to \varnothing 63

- Green spiral in rigid and shock-proof PVC
- Wall in soft and transparent PVC. Inner and outer smooth

Marking: [batch number]

ADVANTAGES

Spirabel LD is a very light, flexible and economic hose. Its inner wall is smooth to reduce flow losses. Its transparency allows observation of transferred products.

CONNECTORS

Symmetrical connectors (Guillemin or Storz) with band collars thanks to the smooth cover. We recommend checking before assembly that the fittings cannot harm the inner wall.

CHEMICAL RESISTANCE

See table column A.

WARNING

Spiral hoses have in general an elongation under pressure that can be important when temperature is above 40°C. This has to be considered before installation. We remain at your disposal for any question on this issue.
